

ROADRUNNER TRANSPORTATION SERVICES OFFERS COMPREHENSIVE SOLUTIONS TO AND FROM HAWAII, GUAM, AND OTHER MID-PACIFIC ISLANDS.

Roadrunner Transportation Services, Inc. (RRTS) offers complete, door-to-door coverage to all points in the Hawaiian Islands. Utilizing two sailings each week from the port of Los Angeles, Roadrunner offers LCL and FCL as well as Roll-on/Roll-off (RORO) and break-bulk services. Expedited air freight service is also available as part of Roadrunner's turn-key supply-chain solutions.

Roadrunner also provides holistic project management and specialized services to Hawaii including hazardous materials handling, export packing and crating, oversized cargo shipping, heavy lift crane services, and specialized ocean equipment including flat racks and open top containers.

Besides Hawaii, Roadrunner Transportation Services ships to the Pacific Island nations and regions of Guam, Northern Marianas, Micronesia, Palau, American Samoa, and the Marshall Islands through weekly or bi-weekly sailings depending on the final destination.

The customer benefits and advantages through Roadrunner's premier quality Hawaiian and Pacific Island services are many:

- Commitment to service excellence
- Single carrier responsibility from pickup through final delivery
- Highest standards of shipping service available
- Fastest transit times in the industry
- Industry-leading on-time service
- State-of-the-art Web site allows for online shipment tracking and documentation
- Flexible billing options: prepaid, collect, or prepaid to the West Coast and collect beyond
- Outstanding customer convenience including one invoice with itemized charges
- Customer's full discount applies to mainland portion of rates
- All consignees receive advance notification of arrival

Roadrunner's web site now offers tools to make the Hawaiian shipping experience even easier. Use the Zip-to-Zip Calculator to get transit times directly from your door or log in with your MY RRTS account to get a rate quote including all specialized services. Both tools can be accessed from the Rating Center web page at <http://www.rrts.com/tools/RatingCenter.aspx>.

If you have any questions or need additional information please contact your local RRTS terminal.
